### Visitor Parking:

Upon arrival at the ParkX garage, turn **left** following the “1900 Office Parking” sign and proceed through the ticket plaza. (Do NOT use the “Park & Ride” entrance to metro parking.) It’s helpful to know drivers are entering the garage on level G2, regardless of which direction they proceed. After the ticket plaza, to the immediate right, there are several short-term visitor spaces for deliveries, et. al. As these spots are often full, visitors may also park in any unreserved spaces on level G4 or below and proceed to the elevator, where they’ll access P1/Lobby.

Spaces marked with this sign are ok for all 1900 building staff and visitors:

**Reminder:** Visitors should bring parking ticket into the office for validation.
