

Taiwan Drone Developments

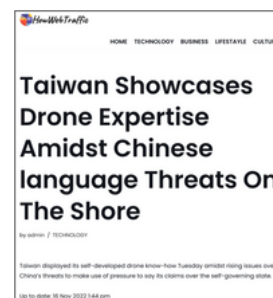

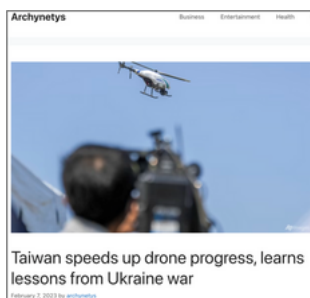

Open-Source Intelligence in Action

Background

- Taiwan boosting drone development
- Asymmetric capability viewed as crucial to countering a superior force (similar to Ukraine/Russia)
- Will emphasize related R/D, military drone production, and acquisition (strategy includes civilian companies)
- Reported investment around \$1.6B in this effort*
- Investment will leverage indigenous production and development, as well as imports
- Also looking to develop deployment concepts

Deeper Insight

Babel Street analysts, harnessing the power of publicly available information by drawing on English and Non-English language sources, examined this developing geopolitical story from a wide variety of perspectives. Using these techniques improves situational awareness and offers timely insights that are difficult to find through traditional outlets.
