

Babel Street Data

Organizations in the commercial and public sectors that need global publicly available information (PAI) at scale turn to Babel Street Data for curated data that helps solve complex challenges, uncover deeper insights, and inform critical decisions.

As an integral part of the Babel Street Ecosystem, Babel Street Data covers virtually every industry and topic with hundreds of specialized collections from the hardest-to-reach sources.

When you need deep insights, comprehensive data, and analytics for a distinct decision advantage, Babel Street Data is the partner of choice.

Products

- **Raw Data Collection** products collected at scale cover virtually every industry and contain rich history that can be reparsed for a more accurate outlook.
- **Refined Information** products provide aggregated data sets that combine multiple data sources to deliver a single output to speed analysis and provide timely insights.
- **Robust Intelligence** provides in-depth data analysis and intelligence reporting conducted by strategic intelligence subject matter experts to deliver mission-critical actionable insights.

Capabilities

Our Babel Street Data collections team has the skill, intelligence, expertise, and technology to harness unprecedented quantities of global data. Our capabilities include:

- **Methodology** — A mature website collection methodology, unique data fabric, a comprehensive library of dynamic data products, and proprietary technology platforms equip us to comb through a massive amount of globally available open-source data to find, assess, and frame information and insights.
- **Infrastructure** — A stable collection infrastructure is at the core of our ability to deliver high-quality data products that are unique, agile, and comprehensive — and can generate timely, actionable insights for any organization. In a world of hyper-rapid change, our continuous updates and enrichments are invaluable. As a result, our data products grow more insightful every day.
- **Historical data** — With decades of historical data, customers have the power to analyze trends and have greater conviction in their decisions. Our best-in-class, curated data fuels all our products and provides superior decision-making accuracy for our customers.
- **Agility and precision** — Our ability to successfully navigate complex data collection problems in risk-managed ways allows customers to obtain the findings and insights they need without undergoing unnecessary risk. We build our data products without compromising quality or accuracy to engender complete confidence in the output.
- **Global scope** — Our global reach spans IP addresses in over 95 countries, giving customers access to localized perspectives, insights, and intelligence worldwide.

Babel Street Data — Let us help you gain decision advantage.

Why Customers Choose Babel Street Data

- Customized, comprehensive data
- Industry-leading expertise
- Robust, scalable infrastructure
- Rich, diverse data library
- Secure data practices
- Global reach and insights

Babel Street is the trusted technology partner for the world's most advanced identity intelligence and risk operations. The Babel Street Insights platform delivers advanced AI and data analytics solutions to close the Risk-Confidence Gap.

Babel Street provides unmatched, analysis-ready data regardless of language, proactive risk identification, 360-degree insights, high-speed automation, and seamless integration into existing systems. We empower government and commercial organizations to transform high-stakes identity and risk operations into a strategic advantage.
