

# Raw Collections

## BABEL STREET DATA

Raw Collections span various topics and industries to provide organizations with high-quality data to derive critical insights for their own decision advantage. Whether you are looking to track industry trends, navigate supply chain impacts, understand competitive landscapes, or analyze financial and investment opportunities, Babel Street Data collections leverage publicly available data (PAI) to provide an added layer of intelligence to your decision-making toolbox.

Our mature infrastructure enables us to collect global data at scale while meeting rigorous compliance standards and security regulations. While other data collection companies cater to niche markets, Babel Street boasts an exhaustive library of data products, with a rich body of historical data to provide a more accurate outlook.

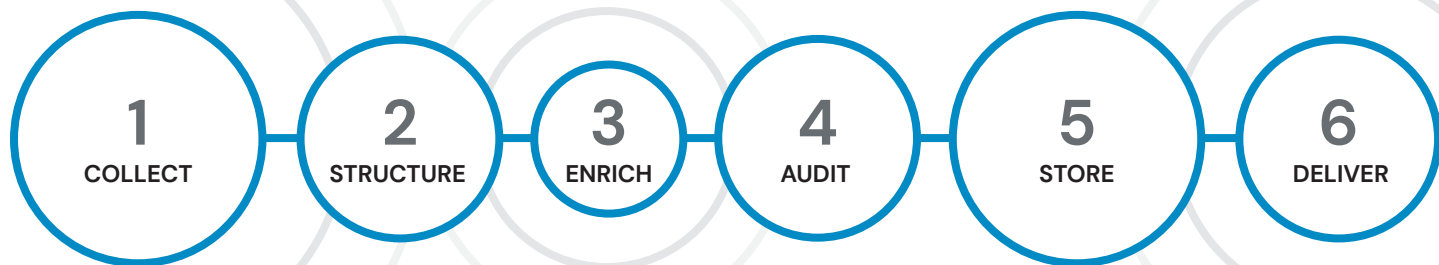

## Raw Collections Provide Maximum Flexibility

We understand our customers need to leverage data to solve problems and make timely decisions — and that collection requirements can frequently change. Raw Collections provide ultimate flexibility, with a pricing plan to fit any budget and the ability to interchange collections monthly for maximum decision-making value.

## Available Raw Collections

Babel Street collects data from thousands of public websites and provides data products in an unparalleled number of industries and categories. Here are just a few:

- Retail
- Job Listings and Reviews
- Telecommunications
- Semiconductors
- Travel
- Automotive
- Real Estate
- Industrial Listings
- Online Conversations
- Healthcare
- Points of Interest and Geographic Locations
- **And more**

## Our Collection Process

**Collect:** Leveraging our seasoned infrastructure, our highly skilled collections specialists create web crawler scripts to collect data from global websites and run them on a set cadence for optimal results.

**Structure:** The team develops data schemas for collection of key fields and data attributes for comprehensive analysis.

**Enrich:** To ensure we provide quality data, we often enhance the data to improve accuracy and ensure that missing information is recovered.

**Audit:** We subject our data to in-depth QA efforts to ensure the output meets the highest standards. We eliminate the risk of gaps, changes in structure, potential outages, and blocking technologies.

**Store:** We securely store our data collections and cached data in our platform infrastructure that meets financial and government compliance and security requirements.

**Deliver:** Customers can receive raw data files in CSV or JSON format directly, or have data integrated into third-party systems such as an Amazon S3 bucket or Snowflake using our API.

## Babel Street. Unlock the Most Insights that Matter.

Babel Street is the trusted technology partner for the world's most advanced identity intelligence and risk operations. The Babel Street Insights platform delivers advanced AI and data analytics solutions to close the Risk-Confidence Gap.

Babel Street provides unmatched, analysis-ready data regardless of language, proactive risk identification, 360-degree insights, high-speed automation, and seamless integration into existing systems. We empower government and commercial organizations to transform high-stakes identity and risk operations into a strategic advantage.
