

Babel Street Secure Access

BABEL STREET INSIGHTS

Accessing critical information while safeguarding your identity, local hardware, and network from both known and unknown threats is paramount. Babel Street Secure Access empowers you to overcome geo-restrictions, protect your identity, and conduct investigations with complete confidence.

Secure Access goes beyond traditional privacy tools and existing managed attribution solutions, offering a unique combination of advanced anonymization, controlled attribution, and an isolated research environment. Whether you're investigating emerging threats, conducting due diligence in high-risk regions, or simply seeking unrestricted access to global information, Secure Access provides the tools you need to succeed without compromising your safety or identity.

Why use Babel Street?

Unrestricted global access and tailored browsing experience

Break down geographical barriers and unlock worldwide insights. Babel Street Secure Access empowers you to transcend borders and access information from any corner of the globe, no matter where it is hosted. Bypass geo-restrictions, gain authentic local perspectives, and ensure uninterrupted access to online platforms. Tailor your browsing experience with options ranging from a simple web browser for quick research to a full device/OS environment for sustained in-depth investigations, ensuring you have the right tools for any task.

Enhanced security and privacy with comprehensive protection

Operate confidently in any digital landscape. Babel Street Secure Access offers a fortress of protection for your sensitive research and investigations.

Secure Access at-a-glance

- Appear online anywhere in the world within seconds
- Bypass geo-restrictions effortlessly
- Flexibly control your online presence
- Protect your devices, network, and identity from volatile online environments
- Complete organizational oversight with robust reporting

Control your online presence with managed attribution, allowing you to tailor your digital footprint to specific needs. Shield your local hardware and network from threats while conducting research and engaging online without fear of surveillance or data breaches. Enjoy the flexibility to operate securely, ensuring your operations are always protected and uncompromised.

Streamlined and persistent research with secure collaboration

Accelerate research and foster seamless teamwork. Babel Street Secure Access optimizes your research workflow with persistent sessions that enable a mature online presence, helping you overcome access barriers and behavioral analysis and detection systems. Centralize your findings, collaborate seamlessly with your team, and customize your experience with flexible tools and access options. Securely manage and share files discovered both within and outside the platform, fostering efficient teamwork and knowledge sharing in a protected environment.

Key Benefits

- **Effortless global access** – Instantly access local content in any country, bypassing geo-restrictions.
- **Multi-layered protection** – Safeguard your identity, location, device, and network with advanced anonymization, robust isolation, and secure file handling.
- **Flexible virtual environments** – Choose your ideal research environment and enhance it with third-party extensions/apps.
- **Tailored online identity** – Maintain complete anonymity or build a credible online presence with managed attribution.
- **Advanced customization and control** – Personalize your browsing with egress point selection, multi-hop traffic paths, and custom user permissions.
- **Streamlined research and collaboration** – Centralize research, collaborate seamlessly, and securely share findings within your organization.
- **Complete visibility and oversight** – Gain complete oversight into system activity and user behavior with customizable reporting and granular user permission controls.

Tiered Access, Tailored to Your Needs

Secure Access offers six distinct tiers of regional egress points, carefully calibrated to balance cost, technical complexity, and geographical considerations:

Tiers 1-2 – Easily accessible regions — Seamlessly access open-source intelligence and data in well-connected regions

Tiers 3-4 – Specialized access regions — Unlock valuable insights from regions with unique access challenges, providing specialized perspectives and data sources

Tiers 5-6 – Strategically Complex regions — Access highly controlled regions, overcoming technical and geopolitical barriers to gather critical intelligence.

Uncover hidden truths and make informed decisions, even in the most challenging digital environments. Empower your team with unrestricted global intelligence through Babel Street Secure Access.

Babel Street Secure Access Packages

- **Research Essentials** – Basic, secure online research. Anonymized browsing, secure file handling, and essential collaboration tools.
- **Research Pro** – Persistent online research. Maintains a consistent online presence for in-depth investigations that require ongoing access.
- **Investigate Essentials** – Secure virtual machine for investigations. Explore diverse data sources and the dark web with a full OS and virtual hardware experience.
- **Investigate Pro** – Advanced, persistent investigations. Maintains investigative continuity by retaining persistent browsing data and third-party app configurations.

Babel Street is the trusted technology partner for the world's most advanced identity intelligence and risk operations. The Babel Street Insights platform delivers advanced AI and data analytics solutions to close the Risk-Confidence Gap.
